

**LS-20M**

# Captures Sights and Sounds Like Never Before

Whether you are recording a live recital, creating a home movie or video chatting with family and friends, you'll be amazed by the linear PCM audio and high-definition video with the Olympus LS-20M. Transform everyday videos into memorable movies with the Olympus LS-20M Linear PCM recorder. The LS-20M makes it easy to capture high definition video—and you can add creative flair to any recording with Magic Movie special effect filters.

## LS-20M

- **1080P HD VIDEO RECORDING**

Capture all of life's best moments in full 1080P at 30 frames per second. Easily upload videos to Facebook, You Tube, Vimeo and other web-based sharing sites. The resolution also offers remarkable details on modern home theatre systems.

- **Double CD Quality HD Audio**

24BIT / 96KHZ Linear PCM Recording allows you to capture every sound in rich, better-than-CD quality sound.

- **MAGIC MOVIE SETTINGS**

Turn scenes of everyday life into extraordinary images that are distinctive and compelling. Express your creative vision in your HD videos using one of four Magic Filters: Rock, Pop, Sketch and Pin Hole.

- **REMOVABLE SD/SDHC CARD COMPATIBILITY**

Never run out of recording space again. Use an SD or SDHC memory card to capture hours of audio and video — and still have room to store documents and other files.

- **WEB CAMERA**

Use built in high-quality audio and HD video to stream performances on the web via Ustream or any other broadcast platform. Or use it as a web cam to talk to family and friends.

- **BATTERY CHARGE FUNCTION**

Batteries will charge when connected to a PC or optional AC adapter.
