<b>DSS Player Pro Release 5</b>	- Dictation Module - Transcription Module	Upgrade available to ODMS Release 6 by purchasing the AS-7003 or AS-7004 Upgrade CDs
<b>ODMS Release 6 (Current Software)</b>	- Dictation Module - Transcription Module	Updates to the latest version through the software. (Under Help > Check for Updates)

**\*DSS Player Pro Release 4 users Upgrade to DSS Player Pro Release 5.**

DSS Player Pro Release 4 users are able to upgrade their software to DSS Player Pro Release 5 using either the Pro 5 installer or software CD. This software comes bundled with the DS-3400 & DS-3400.

Running this installer or inserting the Pro 5 CD into a computer with Pro 4 software installed will perform the upgrade process. A new Pro 5 upgrade license key will be issued which should be kept for future use by the client, together with the Pro 4 CD & license key. This upgrade procedure applies to both Dictation & Transcription Modules.
