

Introducing... OLYMPUS DICTATION DELIVERY SERVICE

Download the **FREE** Olympus Dictation App from iTunes or Googleplay

It's clever, easy to use and allows you to quickly dictate letters, memos, personal notes or anything you wish to record and send as an email attachment.

Upgrade the 'Free' version to a licensed Version and enjoy the added benefits. For busy professionals these include...

- Secure file transfer via the Olympus Dictation Portal (ODP) cloud server
- Highly compressed files for faster transfer using .dss or .ds2 file format
- Author ID & Worktypes to seamlessly integrate into an existing Olympus Digital Dictation System (download files directly to your typist in-tray)
- Multiple send options (configure your phone to send directly to your nominated typist or select from a dropdown list to select other options)
- Full editing during dictation Insert-Append-Overwrite
- File Encryption added security for sensitive documents
- File Management Folders: Pending | Outbox | Sent
"Pending" is a great feature if your dictating in a restricted Wi-Fi area such as inflight or outside a coverage area.

The Olympus Dictation Delivery Service (ODDS) license grants full access for one user for one year at a cost of \$179 (\$156+gst) or \$3.00 per week

For larger companies, the App settings can be centrally administrated via the Olympus Dictation Portal (ODP) providing complete control for setup and management of all licenses, including the transfer or change of user ID(s) and secretarial preferences.
